TEST ONLY

TEST ONLY: Publishing pipeline check

This is a harmless technical test of the TAR publishing pipeline. It is not a research report. It does not describe any company, announcement or share price.

What this test checks

- The PDF uploads to GitHub and is served by GitHub Pages
- Buffer accepts the PDF as a LinkedIn document
- The document shows two working pages with the right title and caption on The Announcement Room page

Placeholder chart (no real data)

Bar lengths are arbitrary and mean nothing.

TEST ONLY

Page 2: this test post will be removed

If you can see this page inside a LinkedIn document, the document upload worked. The post is a test and will be deleted shortly after it is checked.

Nothing here is investment content

- No company, ticker or financial figures
- No recommendation of any kind
- Please ignore this post
